

*****Directions Update*****

Please be advised that there is currently a construction project on the Neponset River Bridge. This could affect your travel if using the bridge coming from Gallivan Blvd—Rt 203 from Dot, Mattapan, JP, Brookline etc.: from Morrissey Blvd coming from Dot, Southie, etc.: or the SE Xway South from Boston.

Currently they are working on the middle lane you want to stay left however you may be forced right and down Hancock Street. It's OK! Stay on Hancock and take the left for Shea Blvd. It's after the Office Building then little restaurant on your left, before Applebees and requires a sharp left/reverse of direction to get you on Shea—Stay left —so the Red Line is on your left and go under the bridge and follow to Marina Bay. If you go right and come up on Quincy Shore Drive go right and follow original directions---left at E. Squantum at the Dunkin Donuts

If you pass Applebees, take the next left at the lights on E. Squantum at NQHS and follow all the way to Marina Bay.
